

Technical drawing of a rectangular plate with dimensions and labels. The overall dimensions are 1500 (height) and 1050 (width). The drawing includes various callouts and dimensions:

- Top edge dimensions: 120, 71.5, 70.
- Left edge dimensions: 1500, 95, 110.
- Right edge dimensions: 1500, 650, 110.
- Bottom edge dimensions: 1050, 110.
- Internal dimensions and offsets: 650, 600, 650, 530, 46.5, 110, 110.
- Labels: C5, ①D13, ②D6, ③D13, C15, 連結用インサート M12, C10.
- Angles: 45°.

The technical drawing illustrates a cross-section of a reinforced concrete slab. The overall width is 1497 mm, divided into two equal sections of 748.5 mm each. The total height is 615 mm, composed of a top layer (60 mm), a middle section (240 mm), and a bottom layer (260 mm). Reinforcement includes 2D6 bars at the top, 3D13 bars at the bottom, and 3@205=615 mm spacing for the main reinforcement. A central vertical section shows a circular hole with a diameter of 275 mm. Other dimensions include 45 mm for the top edge, 70 mm for the bottom edge, and 499 mm for the distance between the holes.

①D13 L=2360~2773 n=16

Technical drawing of a corner bracket (D13) showing dimensions: L=2360~2773, n=16. The drawing shows a vertical leg with a total height of 711 and a bottom section of (989)669. A horizontal leg extends from the bottom of the vertical leg. A fillet with radius R50 is at the corner. A dimension of 20 is shown at the top of the vertical leg. The horizontal leg has a dimension of 984~1383.

Technical drawing of a rectangular plate with dimensions and a detail view. The main drawing shows a plate with overall dimensions of 1497 mm by 1050 mm. The top edge is divided into segments of 748 mm and 749 mm. The right edge is divided into segments of 1050 mm and 447 mm. The bottom edge is divided into segments of 1050 mm and 447 mm. The left edge is divided into segments of 748 mm and 749 mm. A detail view (C10) shows a 90° corner with a 15 mm radius and a 15 mm thickness.
